Welcome to the official mobile application of the City of Częstochowa, which is addressed to inhabitants and visitors coming to our city. You will find here current information about cultural and sport events, complemented by an audio guide and with the elements of augmented reality, a presentation of interesting places, monuments and tourist attractions in Częstochowa, you will learn about the activities of municipal cultural institutions, and you will find out what pubs and restaurants in Częstochowa have to offer. With this application you can easily check out the prepared walking and cycling routes around the most interesting places in the city and surrounding area, and also check the timetables of public transportation with a browser, which also includes transfers. The application works in an offline mode, using the internet connections only for downloading a latest update and wider range of maps. Feel free to use it!
